Lower Moss Wood has a unique approach to wildlife and environmental education. A walk through the wood guided by the Warden Ray Jackson MBE opens up a whole new world. An informative and amusing experience which children will never forget. Ray has over 28 years of experience and is passionate about wildlife.

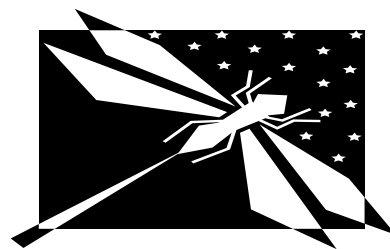

- Learn how to identify the birds by their song.
- Be a detective and discover the secrets of who lives in the wood by decoding the signs that they leave behind.
- Delve into the depths of the pond to see what lies beneath.
- Work out the food chain from the microscopic creatures to the top predator.

We cater for classes of up to 35 children. Visits start at 10:00 and finish at 14:30.
